

Bridge Builders

INFORMATION ABOUT THE MINISTRIES OF BRIDGE
BY PASTOR JOZSEF STEINER

Preaching the Gospel in Transylvania

No, not to the Dracula... but to the Hungarian people in Romania. There are millions of them. Since our city is very near to this area, we go on missions trips there several times every year. Building bridges between countries!

Wedding in the village of Szilágysámson.

Youth area convention in Rogeriusz,

*Youth retreat in the
downtown of
Nagyvárad.*

God's purposes in Budapest

Last October and November Bridge worked in Budapest at two significant event.

40 Days Of Purpose

We organized the very first 40 days campaign in Hungary in the heart of the city, for seekers. This program was totally non-denominational, involving people from the so-called traditional churches as well as from the new denominations, and - thanks to the Lord - from no religious background.

Purpose Driven Church Training

Nov. 16-17.

We also put a big emphasis on training leaders and pastors, so we continued our education program for them. Pastor Abraham Meulenberg, Dr. Rick Warren's associate led us during the 2 days course, what is a part of our 3 years plan. We had 59 in attendance.

Thank you for praying for us as we ministered in the capital of Hungary among very influential leaders, pastors and denominational leaders.

Learning how to reach out for children and youth

We had an incredible 10 days long course in TCMI, Austria at this fall. Ten of us could go and study about the ministry on this particular area from an excellent professor, Dr. Myron Williams, a leader from Southland Christian Church, Lexington, Kentucky.

Since the entire class was formed exclusively by the members of Trinity, this has given a unique opportunity to Prof. Myron to specialize his teachings on our ministry in Debrecen, Hungary. This is one of the reasons why this time has brought unforgettable memories and great lessons for our group. Of course the beauty of God's world at the fall, in Austria... great addition to the blessings of TCMI!
